

READY TO MAKE YOUR BREAK FROM MIGRAINE?

Kick-start the conversation with your healthcare provider about whether migraine prevention with VYEPTI is right for you.

Here are some questions to help get you started:

1. Is VYEPTI something that might be right for me?
2. How quickly will VYEPTI start working?
3. What results could I see with VYEPTI?
4. What side effects might I experience with VYEPTI?
5. What can I expect with an intravenous (IV) treatment like VYEPTI?
6. Where would I need to go to get my IV treatment?
7. Would I need to stop my other medication before starting VYEPTI? (Always let your healthcare provider know about any other medications you may be taking.)
8. Is there a savings program available for VYEPTI?
9. Is there a patient support program available for VYEPTI?

Print or download this list onto your mobile device to bring it to your next doctor's appointment.

Be sure to let your doctor know how many days per month you experience migraine or migraine symptoms and how it impacts your life.

APPROVED USE

VYEPTI is a prescription medicine used for the preventive treatment of migraine in adults.

IMPORTANT SAFETY INFORMATION

Do not receive VYEPTI if you have a known allergy to eptinezumab-jjmr or its ingredients.

VYEPTI may cause allergic reactions. Call your healthcare provider or get emergency medical help right away if you have any symptoms of an allergic reaction: rash, swelling of your face, lips, tongue, or throat, if you have trouble breathing, hives or redness in your face.

Before starting VYEPTI, tell your healthcare provider about all your medical conditions, including if you are pregnant or plan to become pregnant, or you are breastfeeding or plan to breastfeed.

Tell your healthcare provider about all the medicines you take, including any prescription and over-the-counter medicines, vitamins, or herbal supplements.

The most common side effects of VYEPTI include stuffy nose and scratchy throat, and allergic reactions.

These are not all the possible side effects of VYEPTI. Tell your healthcare provider if you have any side effect that bothers you or that does not go away.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.

For more information, see the full [Prescribing Information](#) and [Patient Information](#).
