# READY TO BREAK AWAY FROM MIGRAINE?<sup>1</sup>

Kick-start the conversation about migraine prevention with VYEPTI.

**vyepti™**  
(eptinezumab-jjmr)  
100 mg/mL injection

This list of questions can help you start talking with your doctor about breaking away from migraine with VYEPTI:

1. Is VYEPTI something that might be right for me?
2. What can I expect with an IV treatment?
3. How quickly will VYEPTI start working?
4. What results can I expect with VYEPTI?
5. What side effects might I experience with VYEPTI?
6. Where would I need to go to get my IV treatment?
7. Would I need to stop my other medication before starting VYEPTI? (Always let your healthcare provider know about any other medications you may be taking.)
8. Is there anything I should know to prepare for my first IV treatment?
9. Is there a patient support program available for VYEPTI?

Print or download this list onto your mobile device to bring it to your next doctor's appointment.

Be sure to let your doctor know how many days per month you experience migraine or migraine symptoms and how it impacts your life.

## IMPORTANT SAFETY INFORMATION (continued)

**VYEPTI may cause allergic reactions.** Call your healthcare provider or get emergency medical help right away if you have any symptoms of an allergic reaction: rash, swelling of your face, lips, tongue, or throat, if you have trouble breathing, hives or redness in your face.

**Before starting VYEPTI,** tell your healthcare provider about all your medical conditions, including if you are pregnant or plan to become pregnant, or you are breastfeeding or plan to breastfeed.

**Tell your healthcare provider** about all the medicines you take, including any prescription and over-the-counter medicines, vitamins, or herbal supplements.

**The most common side effects** of VYEPTI include stuffy nose and scratchy throat, and allergic reactions. These are not all the possible side effects of VYEPTI. Tell your healthcare provider if you have any side effect that bothers you or that does not go away.

**You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch) or call 1-800-FDA-1088.**

**For more information, please see the Prescribing Information and Patient Information.**
