

VYEPTI CONNECT™ Is a Direct Link to Patient Support

Lundbeck is committed to patient access and providing reimbursement information to support access to Lundbeck's products. That is why Lundbeck created VYEPTI CONNECT.

VYEPTI CONNECT is an optional program for which providers can enroll their patients. The program offers eligible patients access support throughout the patient journey—from benefits investigations through appeals.

VYEPTI CONNECT is there to support patients every step of the way*

● Providing Access Support for VYEPTI Patients

VYEPTI CONNECT Offerings*

-  **Benefits investigation informational support** includes gathering medical coverage requirements, assignment of benefits, and, if applicable, site-of-care requirements of the payer for VYEPTI.
-  **Prior authorization (PA)/medical exception support** provides information on the payer's process for determining VYEPTI coverage, including blank PA forms that can be submitted by an HCP to request patient access to VYEPTI. Once a PA is submitted, VYEPTI CONNECT can confirm the patient's final coverage information for VYEPTI.
-  **Appeals support** offers information on the payer's process if an HCP wants to appeal a denial or other decision regarding VYEPTI coverage. If an appeal is submitted, VYEPTI CONNECT can confirm the patient's final coverage information for VYEPTI.
-  **Alternate site of care locations** can be provided by VYEPTI CONNECT for patients with providers who are not able or do not wish to administer VYEPTI in their office. VYEPTI CONNECT can also check the patient's insurance to confirm that site-of-care locations are in their network.
-  **Infusion reminders** can alert healthcare providers to their eligible patients' upcoming VYEPTI infusions.
